Abdul Gaffar
PharmHealth Technologies Inc.
Former Vice President, Growth Technology,
Colgate-Palmolive

The American Chemical Society presented Abdul with the Heroes of Chemistry award in 2005. He received this honor for the development of the technology for Colgate Total toothpaste (TP); a first FDA approved therapeutic TP. In 2001, he was inducted into the NJ Inventors Hall of Fame. He has been issued 145 patents. He retired in 2006 and currently advises private equity firms.

My passion for speaking

How to accelerate innovation via Open Innovation

How to develop high-performance innovation teams

How to find the right technology and product fit

Favorite innovation topics include

Technology and innovation trends

Open innovation and outreach activities

Acquiring and developing technologies, products and know-how

Optimizing products and technologies
